

## Mitraa Srinivasan

### MY JOURNEY WITH FIITJEE Global School

I am Mitraa Srinivasan, a student of FIITJEE Global School from grade 9. I joined this school in 2021 because of its world class education and FIITJEE's reputable results in competitive exams. The school made sure I become better in all possible fields that include communication, writing skills, creativity, sports, yoga and many more. I would say this is the perfect school if someone wants the best teachers and best environment to excel in competitive exams and also improve themselves in various other fields. FIITJEE Global School is the best school I came across.

Before I joined this school, I was only able to do the NCERT level of physics and had no interest in social science, tamil and biology. However, the teachers made me gain interest and master every subject. I had mastered all subjects before CBSE boards thanks to the excellent teaching methodology of FGS which promotes concept-based learning approach. The teachers also enhanced my capacity to solve advanced level questions in physics, chemistry and maths.

I secured 488 out of 500 in CBSE boards 2023 thanks to the support teachers, parents and school management gave me. Without their efforts, guidance and patience this would not be possible.

Thank you, FIITJEE Global school for making me a better person and helping me achieve this. I look forward to achieve higher ranks with the excellent support of the best teachers and management. I am truly grateful for your guidance and support throughout my journey. -Mitraa Srinivasan.
